1 THE PROBLEM

Robust training makes VLMs guess

"What flavor of jellybeans are in this package?"

Strawberry!

should abstain

CLEAN +6.9

CORRUPTED +7.6

UNANSWERABLE −15.7

accuracy vs. base model (points)

2 DIAGNOSIS

Inside, it still knows

can't tell!

Strawberry!

INSIDE it knows

OUTSIDE it guesses

3 OUR FIX

Abstain when unsure, stay robust

Unanswerable.

the image can't tell

CLEAN gain kept

CORRUPTED gain kept

UNANSWERABLE abstains
